CABINET CONSTRUCTION

BAKER CABINET DESIGNS REPRESENT 50+ YEARS OF EXPERIENCE IN 304 STAINLESS STEEL Fabrication and craftsmanship.

Edgeward cabinets include:
- A corrosion resistant type 304 stainless steel worksurface and workarounds.
- A hinged panel located directly below the high velocity return air grille on the leading edge of the worksurface provides easy access for cleaning.
- A 0"x8" spill guard at the rear of the worksurface to protect spills from entering the filter media.
- The satin finish worksurface diminishes harsh light reflections.
- The #18 gauge cold rolled steel exterior cabinet is protected with a white baked enamel finish.
- Fluorescent lamps which provide up to 200 foot candles lighting at the worksurface.
- Electrical rating: 115 vAC, 20 amps, 60 Hz.

ANIMAL TRANSFER STATION FEATURES
