CABINET CONSTRUCTION

Saker Cabinet designs represent many years of experience in stainless steel fabrication and craftsmanship.

EdgeGARD cabinets include:

- A corrosion resistant Type 304 stainless steel work-surface and workarea side/walls.
- A hinged panel located directly below the high velocity return/air slots on the leading edge of the work-surface provides easy access for cleaning.
- A 3/4” spill guard at the rear of the work-surface prevents spills from entering the HEPA filter.

THE SATIN FINISH WORKSURFACE DIMINISHES HARSH LIGHT REFLECTION;

- The #18 gauge cold rolled steel exterior cabinet is protected with a white baked enamel finish.
- Fluorescent lamps which provide up to 200 foot candles lighting at the work-surface.

ELECTRICAL RATING PER UNIT: 115 VAC, 30 AMPS, 60 Hz, 1 PH

TOTAL WEIGHT - 688 LBS
